Buffalo Public Library
ATTN: Ms. Kathy Summers
11 E. Turner Street
Buffalo, Oklahoma 73834

Subject: Buffalo Compressor Station Site

Dear Ms. Summers:

The U.S. Environmental Protection Agency (EPA) appreciates having the Buffalo Public Library as one of the designated Administrative Record facility for the Buffalo Compressor Station Site. Please place the enclosed Administrative Record in your facility to be available for public review.

EPA may send supplemental volumes and indexes to you, to be placed with the initial record file. The record file should be treated as a non-circulating reference. The records should not be removed from your facility, but may be photocopied. If documents become damaged or lost, please contact this office for replacements.

The Agency is required by law to make Administrative Records available to the public at or near a facility at issue. The Administrative Record consists of information upon which EPA bases its selection of response action for a particular removal site. The availability of these records will provide the public the opportunity to comment constructively on site activities and to understand the issues relating to the selection of the response action.

Enclosed also is a fact sheet and other documentation to assist you and your staff in answering questions by the public concerning Administrative Records for selection of removal actions.

To verify the receipt of the administrative record file, I would appreciate your completion of the attached Document Transmittal Acknowledgment form. Please return this form in the enclosed self-addressed, stamped envelope.

Thank you for your cooperation with the EPA in serving as a Field Repository. If you have any questions or comments, please contact, Marie R. Doty (214)-665-7366

Sincerely,

J. Chris Petersen
